METER TEST AGREEMENT

PROCEDURE: A customer may use this form to request a meter test. The meter will be replaced and a calibrated meter installed. The old meter will be tested. If the meter test results are within or less than the standards set by the American Water Works Association then the overage will remain on the account and the customer will be billed a meter testing fee of \$120.00.

I hereby apply for a meter test in accordance with the above procedure and authorize MetCom to bill me for the cost of the meter testing if the meter is found to be functioning properly.
