**INDEPENDENT AUDITOR'S REPORT ON COMPONENT
UNIT FINANCIAL STATEMENTS**

The Commissioners
St. Mary's County Metropolitan Commission
Hollywood, Maryland

We have audited the accompanying financial statements of the business-type activities of the St. Mary's County Metropolitan Commission (MetCom), a component unit of the County Commissioners of St. Mary's County, as of and for the years ended June 30, 2011 and 2010, which comprise the St. Mary's County Metropolitan Commission's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the St. Mary's County Metropolitan Commission's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the St. Mary's County Metropolitan Commission as of June 30, 2011 and 2010, and the changes in financial position and cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 20, 2011, on our consideration of the St. Mary's County Metropolitan Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedules of funding progress and employer contributions on pages 3 through 9 and 39 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that comprise the St. Mary's County Metropolitan Commission's financial statements as a whole. The accompanying other supplemental information is presented for purposes of additional analysis and is not a required part of the financial statements. This other supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the St. Mary's County Metropolitan Commission's (MetCom's) annual financial report presents our discussion and analysis of MetCom's financial performance during the fiscal years that ended June 30, 2011 and 2010. Please read it in conjunction with MetCom's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- MetCom's net assets increased by \$7.0 million and \$8.8 million, or 0.9% and 13.4%, as a result of operations in fiscal years 2011 and 2010, respectively.
- During the current year, MetCom's revenue from operations was \$11.7 million, representing an increase of 3.4% over the prior year. The increase in operating revenue is due to an increase in rates of approximately 4% for both water and sewer services, as well as an increase in the number of customers served, offset by a lower sewer usage by our sewer-only customers. In fiscal year 2010, revenue from operations was \$11.4 million, or 10.0% over the prior year. This increase in operating revenue was due to an increase in rates of approximately 8% for both water and sewer services, as well as an increase in the number of customers served.
- MetCom's operating expenses excluding depreciation were \$10 million during both the current year and the prior year.
- MetCom's nonoperating revenue was \$8.6 million during the current year and \$10.4 million in fiscal year 2010, representing a decrease of 21% in the current year and an increase of 13.8% in the prior year. The fluctuation in both years is attributable to capital contributions received.
- The slowdown in the construction industry that started in fiscal year 2008 has continued to have a negative impact on Engineering Revenues in both fiscal years 2011 and 2010. The current year's engineering revenues are less than one-half of the fiscal year 2007 level.
- In FY 2008 MetCom established a trust fund for the management of assets and accounting for financial transactions associated with the provision of retiree health insurance coverage. The balance in the trust fund was \$1.9 million as of 6/30/11 and \$1.6 million as of 6/30/10. MetCom has funded the full OPEB cost for both years.
- MetCom took out two new loans in FY11. The loans total \$13.1 million and MetCom has drawn \$4.7 million as of June 30, 2011.

USING THIS ANNUAL REPORT

This annual reports consists of three parts – management’s discussion and analysis, the basic financial statements and supplemental information. The basic financial statements consist of:

- Statements of Net Assets
- Statements of Revenues, Expenses and Changes in Fund Net Assets
- Statements of Cash Flows
- Statements of Fiduciary Net Assets
- Statements of Changes in Fiduciary Net Assets
- Notes to Financial Statements

The Statements of Net Assets provide a snapshot of MetCom’s financial position at both June 30, 2011 and 2010. Amounts of Net Assets are cumulative from inception. Both current and long-term assets and liabilities, as well as net assets, are presented.

The Statements of Revenues, Expenses and Changes in Fund Net Assets provide information about the activities of MetCom as a whole and reflect activity for the fiscal years ended June 30, 2011 and 2010. These statements measure operating revenues and expenses as well as non-operating revenues and expenses. The statements also present capital contributions as well as changes in net assets.

The Statements of Cash Flows present the sources and uses of MetCom’s cash. MetCom uses the direct method for presenting the cash flow statements.

The Notes to the Financial Statements provide information and more detailed data about the financial statements. The Supplementary departmental financial statements report MetCom’s activities in more detail by providing information about MetCom’s most financially significant funds.

MetCom operates as an enterprise fund, which is one type of proprietary fund. All of MetCom’s basic services are reported here, including water, sewer, engineering services and general administration, as well as other nonoperating revenues and expenses. MetCom charges customers fees to cover all of the costs of the services it provides. MetCom’s financial statements are presented using the accrual basis of accounting and the economic resource measurement focus. All assets and liabilities are included in the financial statements. Revenue is recognized when water and other services are delivered, and expenses are recognized when goods and services are received, regardless of when cash is received or paid.

MetCom has one fiduciary fund, the Retiree Health Benefit Fund, which is used to account for resources held for the benefit of MetCom employees and retirees. These funds are not available to support MetCom’s operations. The accounting used for fiduciary funds is much like that used for proprietary funds.

The supplementary departmental financial statements provide details about MetCom's most significant funds – not MetCom as a whole. The Board of Commissioners of MetCom establishes funds to help it manage and control monies for particular purposes or to show that it is meeting legal responsibilities.

METCOM AS A WHOLE

Statements of Net Assets

MetCom's net assets increased by approximately \$7.0 million in FY 2011 and \$8.8 million in FY 2010. The majority of the increase is attributable to the change in net assets invested in capital assets, net of related debt. During fiscal year 2011, developers completed construction of \$2.7 million of capital assets and donated them to MetCom. In fiscal year 2010, developers contributed \$4.8 million of capital assets. MetCom also received \$2.2 and \$2.1 million in grants in fiscal year 2011 and 2010, respectively. The following condensed statements show the changes in assets, liabilities and net assets for the years ended June 30, 2011, 2010 and 2009.

Statements of Revenues, Expenses and Changes in Fund Net Assets

Changes in MetCom's net assets can be determined by reviewing the following condensed Statements of Revenue, Expenses and Changes in Fund Net Assets:

MetCom's Changes in Net Assets (in millions of dollars) Business-type activities

	Years ended June 30,		
	<u>2011</u>	<u>2010</u>	<u>2009</u>
Operating revenues	\$ 11.7	\$ 11.4	\$ 10.3
Operating expenses	(10.0)	(10.0)	(9.4)

Net assets at end of year	<u>\$ 81.9</u>	<u>\$ 74.9</u>	<u>\$ 66.1</u>

MetCom's operating revenues totaled \$11.7 million during the current year. Total operating revenues increased by 3.4% over the prior year, compared to an operating revenue of the prior year of \$11.4 million, which was an increase of 10% over fiscal year 2009. The current year increase is due to a 4% average increase in water and sewer service rates and customer growth offset by lower sewer usage by sewer-only customers. The prior year increase was due to customer growth, as well as an increase in the rates of approximately 8% for both water and sewer services. Expenses from MetCom's operating activities excluding depreciation totaled \$10.0 million during the current year and prior year. All of these expenses are considered related to providing water, sewer and engineering services to the residents/businesses of St. Mary's County. Salaries and benefits comprised \$6.6 million, or 65.6% of operating expenses. Power for plant operations was \$1.1 million, or 11.4%. Maintenance of the system was \$.5 million, or 5% of operating expenses. The remaining \$1.8 million, or 18%, related to direct and administrative costs.

Total Nonoperating Revenue increased \$.2 million to \$3.7 million in the current year due to an increase in debt service charges that resulted from a 3% increase in system improvement charges. Total Nonoperating Revenue decreased \$.3 million in the prior year due to a decline in house connections, interest income and other fees. Capital contributions, which include both grants and assets built by developers and donated to MetCom, are down \$2 million from the prior year. The reduction is due to the decline in the amount of donated assets.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets

At June 30, 2011, MetCom had \$141.3 million prior to depreciation invested in capital assets. This represents an increase of 9% over the previous year. As of June 30, 2010, MetCom had \$129.4 million prior to depreciation invested in capital assets. MetCom owns water and sewer systems and treatment facilities in addition to numerous vehicles, furniture, equipment and computer equipment and buildings. The following table summarizes MetCom's capital assets (in millions):

	Years ended June 30,		
	<u>2011</u>	<u>2010</u>	<u>2009</u>
Utility plants	\$ 89.2	\$ 87.1	\$ 79.8
Water plants	28.2	23.5	19.8
Equipment	7.0	6.6	6.2
Capitalized interest	.8	0.8	0.8
Buildings	3.8	1.5	1.5
Land	.6	0.6	0.6

Net capital assets	<u>\$ 98.5</u>	<u>\$ 89.9</u>	<u>\$ 78.8</u>

This year's major capital asset additions included:

The Wildewood Water Tower #2 was completed at a total cost of \$2.4 million. This was a cost sharing project with the developer. The developer built and donated \$1.8 million worth of the project and MetCom funded \$579 thousand of the project with a loan from the Department of Housing and Community Development (DHCD).

MetCom purchased the new administration building at First Colony at a total cost of \$2.3 million which was funded with a loan from DHCD.

The Patuxent Park Water & Sewer Project, Phase 1 was completed at a total cost of \$986 thousand which was funded with a grant of \$200 thousand and loans from DHCD.

The Piney Point Sewer Rehab project was completed at a cost of \$711 thousand which was funded with a grant of \$466 thousand and a loan from DHCD.

The St. Clements Shores Well was completed at a cost of \$449 thousand which was funded with a loan from Maryland Department of the Environment.

The Great Mills Water Main from the freeway to Cecil's Mill was completed at a cost of \$422 thousand which was funded with a loan from DHCD.

Sewer lines, force mains, manholes, grinder pumps, three sewer pumping stations, water mains, valves and fire hydrants were constructed and contributed by developers, \$841 thousand.

In fiscal year 2011 MetCom received \$2.2 million in grants from the Maryland Department of the Environment, MDE; \$83 thousand for the Patuxent Park Sewer Line Project, \$466 thousand for the Piney Point Sewer Project and \$1.62 million for the Methane CoGeneration project.

MetCom's FY12 Capital Improvement Budget for water is \$14.5 million, which includes \$1.7 million for water lines, \$3.6 million for water storage tanks, \$1.6 million for wells, \$6.4 million for the radio read meter system and \$1.2 million for miscellaneous projects.

The FY 12 Capital Improvement Budget for sewer is \$39.4 million, which includes \$36.2 million for the Marlay-Taylor Water Reclamation Facility Enhanced Nutrient Removal Upgrade, ENR, \$1.6 million for replacement projects, \$1.1 million for pump stations and \$0.5 million for upgrades/expansions. The largest project is \$36.2 million for the ENR project at the Marlay-Taylor Water Reclamation Facility, which is in the design phase. This project is required to meet the requirements of the Chesapeake Bay 2000 agreement and will be designed to achieve 3mg/l total nitrogen and 0.3mg/l total phosphorous in the effluent. MetCom has received verbal approval of a consent agreement with the Maryland Department of the Environment which gives MetCom until September 2014 to meet these requirements. The State is expected to pay for the ENR portion of this project, estimated to be \$10 million, and the Navy is expected to pay \$7.2 million for this project.

Debt administration

At the end of FY11 and FY10, MetCom had a total of \$25.5 million and \$22.1 million in debt outstanding, respectively.

On November 14, 2007, MetCom issued \$10.9 million of Infrastructure Financing Bonds in conjunction with the Maryland Department of Housing and Community Development, DHCD. As of June 30, 2011, MetCom has drawn \$7.1 million on this loan.

On August 25, 2010, MetCom issued \$12.6 million of Infrastructure Financing Bonds in conjunction with the Maryland Department of Housing and Community Development, DHCD. As of June 30, 2011, MetCom has drawn \$4.3 million on this loan.

The following table summarizes MetCom's debt (in millions):

	<u>June 30,</u>			% change	% change
	<u>2011</u>	<u>2010</u>	<u>2009</u>	<u>FY11</u>	<u>FY10</u>
Bonds payable	\$ 15.8	\$ 12.0	\$ 10.4	31.7	14.8
Notes, leases and loans payable	<u>9.7</u>	<u>10.1</u>	<u>10.1</u>	(4.0)	.2
Total debt	<u>\$ 25.5</u>	<u>\$ 22.1</u>	<u>\$ 20.5</u>	15.4	7.6

The primary sources of revenue available for repayment of debt are System Improvement Charges that are paid by all customers with allocations on our system and Capital Contribution Charges which are paid by new customers.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

MetCom anticipates about a 4.6% increase in the total operating revenues for next year. This increase is mostly attributable to rate increases of approximately 4% in both sewer and water service charges, but is also impacted by projected growth in water and sewer customers.

The total operating expenses in MetCom's Operating Budget for FY12 are \$12.1 million, about \$699 thousand more than the FY11 Amended Budget. Salaries are the largest component of MetCom's expenses; in FY12 salaries are \$4.9 million, with a \$191 thousand increase over the FY11 Amended Operating Budget. Health insurance is \$971 thousand and OPEB is \$443 thousand to fully fund the Annual Required Contribution, ARC, to the Other Post-Employment Benefit Trust. Electricity to operate the water and sewer systems is \$1.1 million in the FY12 Operating Budget.

MetCom has been awarded a grant from MDE for one-half of the cost of both phases of the Radio Read Meter Project. MDE will provide a loan for the other half of the costs.

CONTACTING METCOM'S FINANCIAL MANAGEMENT

ST. MARY'S COUNTY METROPOLITAN COMMISSION

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011 AND 2010

1. Summary of significant accounting policies

Financial reporting entity

The St. Mary's County Metropolitan Commission (MetCom) is responsible for providing water and wastewater facilities and services within the jurisdiction of St. Mary's County, Maryland. MetCom's commissioners are appointed by the County Commissioners of St. Mary's County. MetCom, a body politic and corporate, organized under section 113 of the code of St. Mary's County, is a component unit of the St. Mary's County Government.

The financial statements of MetCom have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The significant accounting policies are described below.

Fund accounting and basis of accounting

MetCom maintains its accounting system as an enterprise fund to report its nonfiduciary activities. An enterprise fund is used to account for operations that are primarily financed by user charges. Separate financial statements are provided for its fiduciary fund.

MetCom applies Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails. Fund accounting is designed to demonstrate legal compliance and to aid in financial management by segregating transactions related to certain government functions or activities. An enterprise fund is used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Both enterprise and fiduciary funds are accounted for using the accrual basis of accounting. With this measurement focus, all assets and all liabilities associated with the operation of this fund are included on the statement of net assets. Fund equity (i.e., net assets) is segregated into invested in capital assets and restricted and unrestricted components. Enterprise fund-type operating statements present increases (e.g., revenue) and decreases (e.g., expenses) in net assets.

ST. MARY'S COUNTY METROPOLITAN COMMISSION

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011 AND 2010

1. Summary of significant accounting policies (continued)

Fund accounting and basis of accounting (continued)

Net assets are reported as restricted when constraints placed on net assets use are either externally imposed by creditors (such as through debt covenants), grantors, contributions, or laws or regulations of other governments or imposed by law through legislation.

Use of estimates

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and cash equivalents

Cash and cash equivalents consist of demand deposits and any highly liquid investments with an initial maturity of three months or less.

Inventory

Inventory is valued at the average cost method. The consumption method of recording inventory is used, which means that the acquisition of materials and supplies is recorded initially in inventory accounts and charged as expenses when used.

Receivables

Receivables consist of all revenues earned at year-end and not yet received. Major receivables include inspection fees and water and sewer billings receivable.

ST. MARY'S COUNTY METROPOLITAN COMMISSION

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011 AND 2010

1. Summary of significant accounting policies (continued)

Compensated absences

Compensated absences are accrued as incurred and recognized as a current liability in the financial statements. These absences represent vacation leave earned but not taken. The total leave earned but not taken was \$315,011 and \$317,959 at June 30, 2011 and 2010, respectively.

Capital assets

All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received. Depreciation expense is calculated on a straight-line basis over the estimated useful lives of the related assets, as follows:

<u>Asset Class</u>	<u>Estimated Life</u>
Utility plants	18 to 50 years
Water plant systems	18 to 50 years
Equipment	3 to 10 years
Capitalized interest	50 years
Buildings	20 to 30 years

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Capital contributions

Capital grants and contributions from federal and state governments are reported as capital contributions in the statements of revenues, expenses and changes in fund net assets.

Donated assets consist principally of capital assets constructed by developers and subsequently donated to MetCom and reported as capital contributions. They are recorded at estimated fair value using developers' estimated costs to construct the assets. The capital assets and related capital contributions are recognized upon completion of construction.

ST. MARY'S COUNTY METROPOLITAN COMMISSION

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011 AND 2010

1. Summary of significant accounting policies (continued)

Deferred bond issue costs

Deferred bond issue costs include legal fees, advertising, rating fees and other costs incurred when bonds were issued. The costs are being amortized over the maturity of the bond issues using the bonds-outstanding method, which approximates the effective interest method.

2. Deposits and investments

Policy

Maryland law prescribes that local government units such as MetCom must deposit their cash in banks transacting business in the State of Maryland, and that such banks must secure any deposits in excess of Federal Deposit Insurance Corporation insurance levels with collateral whose market value is at least equal to the deposits.

State statutes authorize MetCom to invest in obligations of the United States government, federal government agency obligations, and repurchase agreements secured by direct government or agency obligations. All of the funds were invested in the Maryland Local Government Investment Pool (MLGIP), which qualifies under the statutes.

Deposits

The carrying amount of MetCom's deposits was \$2,978,317 and \$2,825,435 at June 30, 2011 and 2010, respectively, and the bank balances were \$3,126,093 and \$2,429,954, respectively. Of the bank balances, \$250,000 was covered by federal depository insurance at June 30, 2011 and 2010, with the remaining \$2,876,093 and \$2,179,954, respectively, adequately covered by collateral.

At June 30, 2011 and 2010, there were no deposits exposed to custodial credit risk, interest rate risk or foreign currency risk.

ST. MARY'S COUNTY METROPOLITAN COMMISSION

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011 AND 2010

2. Deposits and investments (continued)

Deposits (continued)

Cash and cash equivalents consisted of the following as of June 30,

	<u>2011</u>	<u>2010</u>
Investments	\$ 3,598,430	\$ 3,928,128
Cash	2,978,317	2,825,435
Petty cash	<u>450</u>	<u>450</u>
	<u>\$ 6,577,197</u>	<u>\$ 6,754,013</u>

Investments

Investments in the MLGIP are not evidenced by securities. The State Treasurer of Maryland exercises oversight responsibility over the MLGIP. A single financial institution is contracted to operate the Pool. Separately issued financial statements may be obtained from the contractor: David Rommel, PNC Bank, Two Hopkins Plaza, Baltimore, Maryland 21201. In addition, the State Treasurer has established an advisory board composed of Pool participants to review the activities of the contractor quarterly and provide suggestions to enhance the return on investments. The MLGIP uses the amortized cost method to compute unit value rather than market value to report net assets. Accordingly, the fair value of the position in the MLGIP is the same as the value of the MLGIP shares. The MLGIP is rated AAAM by Standard and Poors. As of June 30, 2011 and 2010, MetCom's investments, for both custodial and credit risk purposes, consisted solely of shares in the MLGIP. This investment is not deemed to have either risk. The Pool is managed as a Rule 2a-7 pool. Therefore, MetCom faces no interest rate risk. The cost and fair value of the MLGIP investments at June 30, 2011 and 2010 was \$3,598,430 and \$3,928,128, respectively.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011 AND 2010

4. Long-term debt (continued)

Twenty-first Issue

In fiscal year 2006, the Commission issued Refunding Bonds on April 5, 2006 in the principal amount of \$1,158,700. The bonds mature on May 1, in 15 annual installments, beginning in 2007 and ending in 2021. Interest is payable on November 1, 2006 and semiannually thereafter on each May 1 and November 1 to maturity.

This bond is not subject to prepayment by the Issuer prior to May 1, 2016. On or after May 1, 2017, this bond is subject to prepayment by the Issuer at 100%.

The bonds were issued to refund outstanding maturities of Financing Bonds in conjunction with the Maryland Community Development Administration (CDA). These bonds were issued with a true interest cost ranging from 3.65% to 4.275% to refund certain maturities of \$620,000 in outstanding 1996 Series A bonds, the Thirteenth Issue, with a coupon rate of 5.579% and \$500,000 in outstanding 1995 Series A bonds, the Tenth issue, with an average interest rate of 6.24%. These bonds were issued to take advantage of a favorable interest rate environment. The net proceeds (including interest and premium) of \$1,131,200 were deposited with an escrow agent to provide for all future debt service payments of the refunded bonds.

MetCom refunded these bonds at a premium to reduce its total debt service payments by \$152,325 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$110,445.

Twenty-third Issue

On November 14, 2007, the Commission issued \$10,889,100 of Infrastructure Financing Bonds in conjunction with the Maryland Community Development Administration (CDA). As of June 30, 2011 and 2010, MetCom had drawn only \$7,093,073 and \$5,887,712 of the proceeds, respectively.

The bonds mature on May 1, in 20 annual installments, beginning in 2008 and ending in 2027. Interest rates on the bonds range from 3.5%-4.25%. Interest is payable on May 1, 2008 and semiannually thereafter on each November 1 and May 1 to maturity. The bonds may be prepaid, in whole or in part, at any time after June 1, 2017. Any partial prepayment shall not be less than the outstanding balance or \$50,000, whichever is less.

5. Restricted net assets

Net assets are restricted for the repayment of the following:

- a. Special assessments are restricted in net assets for the future replacement of sewer systems that were built with Environmental Protection Agency grants awarded after February 1984. The amount restricted at June 30, 2010 was \$1,410,023. These net assets were moved to the System Improvement Fund which is restricted for the replacement and upgrade of sewer facilities.
- b. Collection of fees for a sinking fund to upgrade the capacity of the main sewage treatment plant at Marley-Taylor WRF are restricted for that purpose. The amount restricted at June 30, 2011 and 2010 is \$707,104.
- c. The Board has restricted net assets per agreement with customers for upgrades and replacements to their water and sewer systems. The amount restricted at June 30, 2011 and 2010 is \$130,894.
- d. System Improvement Charges are collected for the replacement and upgrade of water and sewer facilities. These funds are restricted by law for that purpose. The balance as of June 30, 2011 and 2010 was \$3,694,933 and \$1,515,254, respectively.
- e. Capital Contribution Charges are collected for the construction of facilities to serve new customers. These funds are restricted by law for that purpose. The balance at June 30, 2011 and 2010 was \$39,927 and \$2,529, respectively.

6. Retirement and pension plan

On March 18, 2004, MetCom adopted a Section 457 plan. Under the terms of the plan, employees may contribute up to 100% of their salary, up to the contribution limits, to the plan. No employer contributions are made to this plan.

Effective July 1, 2004, MetCom joined the Maryland State Retirement and Pension System. Under the terms of entry into the system, MetCom will grant 100% credit for prior service of eligible employees. The actuarial cost of entry into the Maryland State Retirement and Pension System for service prior to June 30, 2004 was \$3,392,774.

6. Retirement and pension plan (continued)

Description

All qualified career employees of MetCom are required to join the Maryland State Employees' Pension Plan. The Plan has provisions for early retirement, death and disability benefits. Participants become eligible for a vested retirement allowance after 5 years' service. The Plans are an agent multiple-employer public employee retirement system. The State Retirement and Pension System of Maryland is the administrator of the Systems. The System was established and benefits are provided by the State Personnel and Pensions Article of the Annotated Code of Maryland. The separately issued financial statements of the System may be obtained by contacting the administrator.

Maryland State Pension Systems

Participants in the Pension Systems contribute a percentage of their earnings. Pensions normally start at age 62 or after 30 years' service, but with 15 or more years of service an employee can elect to have a reduced pension begin at age 55. Pensions are based upon the average of the employees' highest consecutive three years' pay. Cost of living increases are limited to 3% per annum.

On July 13, 2006, MetCom passed a resolution to join the Alternate Contributory Pension Selection Plan (ACPS). The plan increases the employee multiplier from 1.4% to 1.8% for service credits earned after July 1, 1998. Employee contributions are 3% for FY07, 4% for FY08 and 5% thereafter. The ACPS surcharge for FY11 and FY10 is 1.11% of salaries.

Funding policy

The State Retirement and Pensions Article requires contributions by active members and their employees. Rates for required contributions by active members are established by law. Members of the Pension Systems were required to contribute 5% of earnable compensation for the years ended June 30, 2011 and 2010.

Contribution rates are established by annual actuarial valuations. The unfunded actuarial accrued liability (UAAL) is being amortized, as a level percentage of payroll, in distinct pieces. The UAAL which existed as of the June 30, 2000 actuarial valuation is being amortized over the remaining 10-year period to June 30, 2020. Each new layer of UAAL arising subsequent to the year ended June 30, 2000 is being amortized in separate annual layers over a 25-year period. Each separate amortized layer has a closed amortization period. The equivalent single amortization period is 22.722 years.

6. Retirement and pension plan (continued)

Funding policy (continued)

The State of Maryland, the Maryland Automobile Insurance Fund, the Injured Workers' Insurance Fund and over 100 participating governmental units make all of the employer and other contributions to the System.

MetCom provides pension contributions for normal cost and accrued actuarial liability. For the year ended June 30, 2011, MetCom's total payroll and payroll for covered employees were \$4,821,784 and \$3,892,938 respectively. MetCom's contribution to the System was \$414,746 and \$282,327 for the years ended June 30, 2011 and 2010, respectively.

Actuarial assumptions

- a) Return on investment of 7.75% compounded annually (adopted June 30, 2003).
- b) Projected salary increases of 3.5% compounded annually due to inflation (adopted June 30, 2007).
- c) Salary increases due to seniority and merit are projected at 0.00-8.5% per annum (adopted June 30, 2007).
- d) Postretirement benefit increases are projected at 2.75-3.5% per annum depending on the system (adopted June 30, 2009).
- e) Rates of mortality, termination, disablement and retirement are based on actual experience from 2003 through 2006 (adopted June 30, 2007).
- f) Member payroll assumed to increase 3.5% annually (adopted June 30, 2007).

7. Other post-employment benefits

MetCom adopted the requirements of GASB Statement No. 45 during the year ended June 30, 2008. In adopting GASB 45, MetCom recognizes the cost of post-employment health care in the year when the employee services are received, reports the accumulated liability from the prior years and provides information useful in assessing potential demands on MetCom's future cash flows. Recognition of the liability accumulated from prior years will be phased in over 30 years, commencing with the 2008 liability.

During FY08 MetCom established a trust fund, the Retiree Benefit Trust of St. Mary's County Metropolitan Commission, to fund certain retiree health benefits.

Plan Description

MetCom provides health, prescription, dental and vision care insurance benefits to eligible retirees, eligible retirees' family members and the family members of deceased employees as a single-employer plan. Eligible persons include employees with a minimum of ten years of eligible MetCom service entering an immediate retirement, family members of eligible retirees and family members of deceased employees. MetCom pays a percentage of premiums based on the date of hire and number of years of service. For employees hired prior to May 10, 2007, the percentage ranges from 53.13% with ten years of service to 85% with 16 or more years of service. The percentages for employees hired on or after May 10, 2007 range from 21.25% with 15 years service to 85% with 30 years service. There is no statutory or contractual requirement to provide these benefits, and they may be changed or modified by MetCom's Board of Commissioners.

Membership

At June 30 membership consisted of:

Funding Policy

MetCom's Board determines how much is contributed to the OPEB Trust as part of the budget process. It is MetCom's intention to fully fund the OPEB cost each year. The FY12 Operating Budget includes fully funding the OPEB cost. MetCom contributed \$431,000 and \$405,000 to the trust in FY11 and FY10, respectively. The Net OPEB Obligation is overpaid by \$283,984 as of June 30, 2011.

Annual OPEB Costs and Net OPEB Obligation

MetCom's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period of thirty years. The following table shows the components of MetCom's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in MetCom's net OPEB obligation:

	<u>2011</u>	<u>2010</u>
Annual Required Contribution	\$ 434,000	\$ 409,000
Interest on NOPEBO	(20,000)	(20,000)
Adjustment to ARC	<u>17,000</u>	<u>16,000</u>

NOPEBO, (Prepaid) End of Year	<u>\$ (283,984)</u>	<u>\$ (283,984)</u>

The funded status of the plan as of June 30, 2011, was as follows:

Actuarial Accrued Liability (AAL)	\$ 4,476,000
Actuarial Value of Plan Assets	<u>1,563,818</u>
Unfunded Actuarial Accrued Liability	<u>\$ 2,912,182</u>

7. Other post-employment benefits (continued)

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan member to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2010 actuarial valuation, the liabilities were computed using the project unit credit, with proration to benefit eligibility method. The actuarial assumptions included a 7% annual rate of return. The medical cost trend varied between 8% and 5.2% using the Society of Actuaries (SOA) Long-Run Medical Cost Trend Model baseline assumptions. The rates include a 3.2% rate of inflation assumption. The UAAL is being amortized as a 30-year level percentage of projected payroll, closed basis, with 27 years remaining.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and healthcare cost trends.

Amounts determined regarding the funded status of the plan and the annual required contributions are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents information about the actuarial value of plan assets and the actuarial accrued liabilities for benefits. The actuarial value of assets was based on the estimated July 1, 2010 asset figure of \$1,563,318.

Summary of significant accounting policies

The Trust's financial statements are prepared using the accrual basis of accounting. Contributions are recognized in the period in which the contributions are due. Benefits are recognized when due and payable. The Trust assets are invested with the Maryland Local Government Investment Pool.

ST. MARY'S COUNTY METROPOLITAN COMMISSION

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011 AND 2010

7. Other post-employment benefits (continued)

The Trust does not issue a stand-alone financial report and is not included in the report of a public employee retirement system or of another entity.

8. Rate setting

MetCom is required by law to set rates which are sufficient to cover both operating expenses and debt service. Depreciation of the plant and collection systems is not an allowable cost for purposes of setting rates. A reconciliation of the results of operations for financial reporting and rate-setting purposes is as follows:

	<u>Years ended June 30,</u>

9. Risk management

MetCom is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and related disasters. MetCom is a member of the Local Government Insurance Trust (LGIT) sponsored by the Maryland Municipal League (MML), and the Maryland Association of Counties. LGIT is a self-insured public entity risk pool offering general liability, excess liability, business auto liability, police legal liability, public official liability, environmental liability, and property coverage.

ST. MARY'S COUNTY METROPOLITAN COMMISSION

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011 AND 2010

9. Risk management (continued)

LGIT is capitalized at an actuarially determined level to provide financial stability for its local government members and to reduce the possibility of assessments. The trust is owned by the participating counties and cities and managed by a Board of Trustees elected by the members. Annual premiums are assessed for the various policy coverages. During fiscal years 2011 and 2010, MetCom paid premiums of \$101,821 and \$109,973, respectively, to the trust. The agreement for the formation of LGIT provides that the trust will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of annual premiums. Settled claims, if any, resulting from these risks have not exceeded commercial coverage in the past fiscal year.

10. Commitments and contingencies

MetCom is required to upgrade the Marlay-Taylor Water Reclamation Facility to meet Enhanced Nutrient Removal (ENR) standards. ENR standards are levels of 3.0 mg/l total nitrogen and 0.3 mg/l total phosphorous in the effluent that flows into the Chesapeake Bay. MetCom has verbal approval of a consent agreement with the Maryland State Department of the Environment (MDE) that extends the deadline for compliance until September 2014. MetCom is currently in the design stage of an ENR project and fully expects to meet this requirement.

MetCom participates in state and federally assisted grant programs which are subject to financial and compliance audits by the grantors or their representatives. The audits for the year ended June 30, 2011 have not yet been completed. Accordingly, MetCom's compliance with applicable grant requirements will be verified in connection with performing MetCom's Single Audit. The amount, if any, of expenditures that may be disallowed by the granting agencies cannot be determined at this time, although MetCom expects such amounts, if any, to be immaterial.

11. Subsequent events

In preparing these financial statements, MetCom has evaluated events and transactions for potential recognition or disclosure through September 20, 2011, the date the financial statements were available to be issued.

On September 14, 2011, MetCom closed on a loan with SunTrust bank in the amount of \$270,682 for the purchase of a combination sewer vacuum truck (Vactor).

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

The Commissioners
St. Mary's County Metropolitan
Commission
Hollywood, Maryland

We have audited the financial statements of the business-type activities of the St. Mary's County Metropolitan Commission as of and for the years ended June 30, 2011 and 2010, which comprise the St. Mary's County Metropolitan Commission's basic financial statements and have issued our report thereon dated September 20, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the St. Mary's County Metropolitan Commission's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the St. Mary's County Metropolitan Commission's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of St. Mary's County Metropolitan Commission's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the St. Mary's County Metropolitan Commission's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Commissioners, management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
